Key Route to Acquire New Ferryboat and Cars

COMMISSION PERMITS LOAN

Equipment Is Deemed Necessary for 1915 Traffic

Order Has No Bearing on Petition to Bond for \$10,000,000

In order that the San Francisco-Oakland Terminal Railway may be prepared for the immense traffic between Alameda county and the exposition, the State Railroad Commission has permitted the immediate addition of a large number of cars for use in the city of Oakland.

The order of the commission is a preliminary in connection with the application of the corporation for permission to issue more than \$10,000,000 of bonds for necessary financing purposes.

The commission is guided in its decision by the showing made that the San Francisco-Oakland Terminal Railway has the sole privilege of carrying passengers from Oakland to the fair grounds direct. Also, the increasing business of the company in its traction lines in Oakland makes necessary the immediate addition of a great number of street cars.

FAVORS 1915 PROJECT.

While the commission intends to make an exhaustive examination into the financing of the railroad company before granting the bond issue, it is anxious to aid in every way the plans of the corporation to handle the 1915 traffic and does not desire that these plans shall in any manner be hampered.

The order made today permits the company to issue its promissory notes for a period not to exceed one year in a sum not to exceed \$500,000. It is also given authority to issue \$1,000,000 of its general lien bonds at collateral security for this issue of notes. The obligations which the company desires to meet immediately include a preliminary payment of \$50,000 on a new ferryboat to be used in carrying passengers from Oakland to the exposition grounds, and an additional payment of \$100,000 on the street cars.

VALUATION NOT READY.

The commission states that the physical valuation of the property now being made may not be complete for several days. In granting authority for the bonds above mentioned, the commission says:

"We recommend that authority be granted to the applicants to issue its notes secured by a pledge of its bonds upon the condition that these notes be taken by persons in direct interest in this corporation, who shall be fully advised of all of the circumstances surrounding this applicant and who shall agree to hold such notes and such collateral until the property of the corporation is sold or until they shall have been refunded. This reservation we regard as necessary by reason of the fact that in authorizing this issue of notes the commission desires at this time merely to preserve this company in the best possible operating condition and in no way directly or indirectly commit itself to a favorable determination of either of the two applications now before it. The parties in interest

Calls Osculation by Wilson "Sweetest" Kiss She Ever Had

WASHINGTON, June 24.—President Wilson today gave a little girl from Los Angeles what she described as "the sweetest kiss I ever had." The girl was Laura Margaret Reilly, 10-year-old daughter of Charles T. Reilly, a Princeton Graduate.

Little Miss Reilly called upon the President today with her father and mother, dressed in a dainty pink gown and bonnet. After Mr. and Mrs. Reilly had shaken hands with the President the little girl stepped up and pleaded:

"Please, Mr. President, I want to take a kiss from you back to California."

"Certainly," said the President. The little girl left the White House bubbling with joy.

KING PETER OF SERBIA ABOLIGATES

Royal Proclamation to Declare Second Son Monarch

BELGRADE, June 24.—King Peter I of Serbia was reported today to have abdicated the throne in favor of his second son, Prince Alexander.

The king left Belgrade in the afternoon for the baths at Vrnja, in the southern part of Serbia, and a note issued by an official agency announcing the king's departure did not say he had abdicated but confined himself to the statement that His Majesty had signed a ukase entrusting the government of Serbia during his absence from the capital to Crown Prince Alexander.

King Peter's eldest son, Prince George, in 1909 renounced his right of succession to the throne.

A royal proclamation issued shortly afterward was as follows:

"Owing to ill health, I am unable to perform my duties and in accordance with paragraph 69 of the Serbian constitution, I confide the government of Serbia to my heir, the Crown Prince Alexander, during my absence."

As it was known that King Peter was seriously ill the first impression caused to the public by the issue of the proclamation was that His Majesty actually had abdicated and there would be little surprise in court circles in Belgrade if the king's action by the king should turn out to be merely a preliminary step to abdication which King Peter is said to have had in contemplation for some time.

King Peter, who is 70 years old, ascended the Serbian throne on June 15, 1903, after the murder of King Alexander.

King Peter until his accession, led an adventurous life. He studied in Switzerland, and then went to the French military academy at St. Cyr. He participated in the Franco-German war as an officer of the Foreign Legion.

Many years he is said to have engaged in expeditions during King Milan of Serbia, but for forty-five years he himself never set foot on Serbian soil, until he had been elected king by the Serbian Parliament.

DYNAMITERS TO BEGIN TERMS

Four Conspirators Given Freedom by President Wilson

WASHINGTON, June 24.—President Wilson today commuted to expire at once the sentences imposed on Michael J. Hannon of Scranton, Pa., Frank H. Painter of Omaha, Frederick J. Mooney of Duluth, Minn., and William Shupe of Chicago, all convicted in the "dynamite conspiracy" cases.

The twenty other defendants, including the leaders, must begin serving their sentences tomorrow in Leavenworth penitentiary. Clemency for John H. Barry and Paul J. Morris, both of St. Louis, was withheld while they have opportunity to submit separate petitions.

NO HOPE FOR RYAN.

For Frank M. Ryan, former head of the structural iron workers, and others convicted as chief conspirators in the campaign of destruction even the Senators and Representatives who have interested themselves in the pardon appeals, have held out little hope of obtaining clemency.

All of the men are free on bail and the date at which they must present themselves at the federal prison in Leavenworth, Kan., was extended from June 6 to June 25, to give President Wilson more time for consideration of their petitions.

Since the cases have been before the President two of the defendants, Olaf Twitlow of San Francisco and Richard Houlahan of Chicago, have been granted new trials. It is said that unless new evidence against them is discovered they will not be placed on trial again.

MADE LONG STUDY.

The other defendants, who were convicted in the federal court at Indianapolis in 1912, made their appeal to the White House on March 17, after all their efforts to win freedom in the courts had failed.

Attorney General McReynolds took his recommendations of the petitions to the cabinet meeting two weeks ago and since that time the President had been giving a great deal of personal attention to the cases.

Hannon had been sentenced to three years and Painter to two. Mooney and Shupe each got a year and a day. Barry got five years and Morton four.

Those whose pleas for clemency were finally denied and the terms they must serve are as follows:

CLANCY MUST SERVE.

Frank M. Ryan, head of the iron workers, Chicago, seven years; Eugene A. Clancy, San Francisco, six years; Michael J. Young, Boston, six years.

ITALIAN ATTACHE GUEST

HON. GIOVANNI BATTISTA CECCATO, WHO WILL RENDER A REPORT ON OAKLAND TO THE ITALIAN GOVERNMENT.

INSPECTS OAKLAND

Waterfront Factory Sites to Be Lauded in Report to Europe.

"Oakland is indeed a city with a future. I will not venture to predict just what strides it will make; I might fall short. With the logical shipping terminals and its splendid arrangement of streets and its buildings, already it has become known, even abroad, I believe Oakland will some day be one of the greatest of American cities."

So declared Hon. Giovanni Battista Ceccato, commander attaché of the Italian embassy at Washington, who in his commercial inspection tour of the Pacific coast was an Oakland visitor last evening. The distinguished guest, whose commercial reports are to be forwarded to the Italian government, was shown about Oakland by M. M. Jones, secretary of the manufacturers' committee of the Chamber of Commerce, and visited the chamber office before departing for San Francisco to catch a train for the south. He was taken through several factories and expressed himself as of the opinion that Oakland offers factory sites among the best in California.

"Your residence," he declared, "also are pleasing and show a marked degree of prosperity. I believe the west as a whole is prosperous and Oakland seems one of the most prosperous localities in it. I shall call special attention to this in my reports."

NEW HORSE THEFT

Sheriff and Deputies on Trail; Farmers Arming Themselves.

While Sheriff Barnett and his deputies are putting forth every effort to capture a gang of horse thieves in the vicinity of Hayward and San Leandro, reports come to the office today that Henry Henschmidt had lost, through theft, a small pony from his barn in R street, Hayward. No trace of the animal has been found and Deputy Sheriff Joe Soares is making an investigation.

William McConnell, who was arrested recently with a stolen horse in his possession, will be examined at his sanity tomorrow by Superior Judge Donahue and physicians.

One of the horses stolen by McConnell has been identified by a rancher of Lathrop, San Joaquin county, who is now on his way to Oakland to take

Union Hall Is Blown Up By Rioters During Night

President Moyer Flees for His Life From Armed Pursuers

WASHINGTON, June 24.—President Wilson late today received a telegram from Governor Stewart of Montana, informing him of the fighting last night at Butte, but making no request for federal troops. The governor said he would keep the President fully informed of the situation. When the trouble started he asked the President to have troops kept in readiness.

Senator Myers of Montana said today no request for troops would be made unless the situation grew more serious.

HELENA, Mont., June 24.—Governor S. V. Stewart was urged to assert state control in Butte by Charles H. Moyer, president of the Western Federation of Miners, who left Butte in an automobile early today and made the seventy-three-mile trip directly to the state capital.

Governor Stewart, Attorney General Hally, Adjutant General Greenan, President Moyer and a Butte man who refused to give his name, were in conference several hours. The governor said he had nothing to say of the proceedings.

Moyer asserted he had come over to lay conditions as they exist today in Butte before the governor. Asked whether the use of troops would be justified, Moyer replied that stronger authority than the county and city affairs was needed to restore peace. He added that peace would not be restored until the Industrial Workers of the World element, which he said was in control, was eliminated.

MOYER FLEES.

BUTTE, Mont., June 24.—Charles H. Moyer, president of the Western Federation of Miners, who fled from the city last night when Miners' Union Hall was attacked by a mob, boarded Northern Pacific train today and bound, at Deer Lodge, forty miles north of here, at 6:13 o'clock this morning.

After a night of terror in Butte apprehension was felt throughout the city today that the mob of insurgent miners who last night wrecked Miners' Union Hall with twenty-five blasts of dynamite, might turn their activities in other directions. Nevertheless the city was relatively calm today.

The miners, all but two near the wrecked miners' hall, from one of which the powder that blew up the building was stolen, are working today.

No trace was found until late today, however, of President Charles H. Moyer of the Western Federation of Miners, who last night called the meeting of the old union to order and presented his plan for conciliation in the warring factions. Hardly had Moyer read his paper, promising to correct the grievances of the miners who had seceded and concluded with a plea for calmer judgment when the first shots of the early evening rioting in which one spectator was killed and three injured, were heard.

Moyer and about 200 miners, steadfast to the cause of the old union, were hurriedly warned to flee for their lives. They escaped from the rear of the building.

OFFICIALS FLEE.

Moyer jumped into an automobile. Two men in the crowd followed with the machine dashed through the drawn revolvers, which they discharged as they gave chase. In a moment the machine had turned a corner and was out of sight. Since then

Heavy Local Showers Predicted for Tonight

For the last twenty-four hours Oakland received 2.0, San Francisco 1.4, Eugene 3.2, Red Bluff 3.4, Sacramento 2.2 and San Jose .06.

Elections Must Wait, He Says, Until Banditry Ceases

His Agent Publishes U. S. Invitation to Confer

NEW ORLEANS, June 24.—What purported to be the details of the demands made by the United States on General Venustiano Carranza, through which Carranza's representatives would be admitted to the mediation conference at Niagara Falls, were given out here today by Fernando Iglesias Calderon, chief of the Liberal party in Mexico. He is on route to Washington in connection with the Mexican problem.

Aside from the armistice clause which Carranza refused to consider, Calderon said it was demands concerning disposal of religious questions and the time when elections should take place, which greatly interested the Constitutionalists.

DEMANDS ARE MANY.

According to the statement of the Liberal party leader today, the United States demanded that all property of the Catholic church confiscated by the Constitutionalists should be returned to the church; that buildings destroyed should be paid for; that priests should be protected and that priests driven from the country should be allowed to return.

To this Carranza replied, according to Calderon's statement, that the Constitutionalists laws of reform provide that all church property should go to the state when needed and also that the priests must go.

Calderon also stated that Carranza refused to accede to the demand for elections as soon as the revolution is ended. His reply to that, according to

SMITH DEAL IS COMPLETE

Money Will Be Paid Within Week, Advisor Says

That the recently confirmed sale of extensive holdings of F. M. Smith to a coterie of London capitalists will, within a very short time, mean the satisfaction of obligations in outstanding notes to the sum of \$2,500,000, was the statement made today by John Drum, one of the committee of bankers and financiers advising the Oakland capitalist in the matter of reorganizing the Realty Syndicate and his other properties.

Drum was in Oakland today visiting the Realty Syndicate offices and also attending a meeting in the Oakland Bank of Savings, in which he conferred with W. W. Jortswald and other local financiers.

"I am gratified at this sale, however, in that it will place in our hands large funds for needed investments, and will aid considerably in our task of reorganizing the Smith properties. I believe it to be another step toward a quick solution of whatever problems we may have."

The first announcement of the sale of extensive holdings of F. M. Smith to the group of London capitalists, was made by F. W. Smith, was made two weeks ago, and confirmed on Thursday. All arrangements are now complete and the notes held by outside people.

HEROES IN RESCUE

Gothland's Passengers Saved by Almost Superhuman Efforts of Seamen.

HUGHSTOWN, Scilly Island, June 24.—The saving of the passengers of the wrecked Belgian steamer Gothland was accomplished by almost superhuman efforts on the part of the steamship's crew.

Members of the crew of the Gothland told today how one of the Gothland's small boats, crammed with women and children broke away from the darts and fell 20 feet into the sea. The bottom of the boat was smashed and all were thrown into the water.

The women and children struggled helplessly in the waves. A quarter-master of the Gothland sprang from the steamer's deck and succeeded in saving three of the women.

Several of the life-saving crew also jumped into the water and handed drowning children to their companions in the rescue boat until all had been saved. There was a heavy sea running and all salvage work was perilous but eventually all were gotten safely ashore.

The crew of the Gothland, which was on the voyage from Montreal to Rotterdam, went on board today to jettison some of her cargo of grain in the hope of lightening the boat sufficiently to refloat her.

Would Move Depot; Hearing in Progress

SAN FRANCISCO, June 24.—The new Southern Pacific passenger depot at Third and Townsend streets, which is so essential to the progress of the railroad facilities during the Panama Pacific exposition, was the target for protest made before the State Railroad Commission today. The Fourth Street District Improvement Club wants the station moved along Townsend street near Fourth street, if the trains are to be present. Attorney Edward Wilbur, secretary of the organization, was on the stand for the greater part of the morning before Commissioner Gordon. An attempt was made to show that the baggage cars would project over Fourth street, if the trains are to be present. The Southern Pacific had a counter showing that Fourth street had been moved westward with the consent of the supervisors to avoid this very situation. Should the railroad commission intervene the depot project, which has already been severely threatened by referendum proceedings, would again be in jeopardy. It is believed, however, that the request of the club will be refused.

CHANGING HIGHWAY FROM LAKE TAHOE

Commission Decides to Order Immediate Survey of New Line in State.

SACRAMENTO, June 24.—The highway commission, yesterday decided to order an immediate survey of a new line for the Lincoln highway from Lake Tahoe via Sacramento and Yolo basin to Sausalito, reducing the distance to San Francisco by thirty miles. To reach the bay cities heretofore it has been necessary to go via Stockton. The new road will be almost entirely new and will cross the main trunk line, making Sacramento the center of a St. George's cross in the state highway.

It is provided the new trunk line shall run directly from Sacramento to Napa and from there follow the shore of San Pablo bay to Sausalito, where

the projected cross-country road will connect with Placerville and open up to the tourists and pleasure seekers the great Truckee and Lake Tahoe belt and give a perfect outlet into the state of Nevada.

This is not all of the new work the commission has on hand, for the announcement was definitely made that at the next meeting of the state body bids would be called for other important work.

Contracts were let today by the commission for the state highway in Colusa county, to be immediately started. It calls for the construction of eleven miles of highway between the Colusa boundary line and Berlin in the Arbutus district. The cost will be \$54,382.

Work on the highway in Stanislaus, Placer, San Bernardino, Mendocino and Ventura counties was reported completed and up to specifications.

Siskiyou county's board of supervisors were urged by resolution to take some action in connection with providing rights of way for the new state highway in that county.

SAYS COURT DID NOT LEARN FACTS

Mrs. Loraine Spencer Crittenden Claims More of Big Estate.

SAN FRANCISCO, June 24.—Mrs. Loraine Spencer Crittenden, daughter of the late Jacques James de la Montanya, who died in 1912, leaving a \$350,000 estate, today filed a cross-complaint to a suit to quiet title brought by the executors, Lily Croome and William Madden of this city. It is the suit which has been for the settling aside of a deed of trust by the superior court, which had not been fully informed of the facts, she and her brother, Jacques de la Montanya, would have received a larger share of her father's property.

Following the application for the probating of the de la Montanya estate by Mrs. Croome and Madden, they caused to be instituted a suit to quiet title to a large amount of real estate under the name of Mrs. Crittenden. In this action, claiming that she had no interest in any of this property. In her cross-complaint today she alleges that in 1900 her father executed the deed of trust making herself and her brother beneficiaries. In 1904, she says, the trustees, under the deed, together with her grandmother, who was her guardian at that time, misled the superior court in the settling aside of this deed of trust. She says that if the court had been fully advised of the facts it would never had set aside the deed. She asks that action in this connection be recorded in order that she may be in a position to contest the suit of the executors to quiet title.

Divorce Suit Brings His Bigamy to Light

SAN FRANCISCO, June 24.—It required the filing of a suit for divorce by Mrs. Mary Henz, 21 years after her marriage to Frank Henz, to discover that she had been bigamous. She already had a wife living in Switzerland.

The Henz family happily together for twenty years and watched their daughter Helen blossom into womanhood. Henz was proprietor of a shooting gallery and only after he gave up that business and his wife open a boarding house did trouble commence. Then Mrs. Henz's first spouse became too attentive to one of the boarders in her hotel at 2530 Lombard street and she brought suit for divorce last March. In connection with obtaining evidence she communicated to Switzerland for some information. This morning she received word from the American Consul that Henz, April 3, 1915, had married Annie Louisa Hafner and that marriage was still standing when she wedded her in 1903. The suit for divorce was dismissed and substituted a suit for annulment.

Lord Nelson—Old England's Great Naval Hero

WITHOUT Horatio Nelson, England would have been invaded and perhaps conquered by Napoleon. At Trafalgar he smashed forever the French Emperor's hope of creating a naval power. Never was man more idolized and beloved—not only by all of England's people who breathlessly awaited news of his telling victories, but by every man of his fleet. A true Anglo-Saxon, he detested tyrannous powers and legislative usurpations of every kind. He was particularly opposed to prohibitive enactments governing the diet of his men, who, like him, enjoyed Barley-Malt brews, even as their fathers did for countless generations before. Good beer, according to Lord Nelson, has ever been good food. Budweiser Beer for 57 years has been the product of an institution holding the highest ideals known to the ancient art of brewing. The output, due to Quality and Purity, has increased every year until 7,500 men are daily required to keep pace with the public demand. Budweiser sales exceed any other beer by millions of bottles.

PSEUDONYM SERVES FOR SPANISH HERO

Using Name Villa Instead of Vallejo, Santa Cruz Gives Pageant.

SANTA CRUZ, June 24.—By substituting the name of General Villa for General Vallejo, the management of the historical pageant programmed for the week was able to produce last night the play "The Pathfinder," written for the occasion, and staged on a platform built over the San Lorenzo river so as to allow vessels and mounted soldiers to participate in the play.

Mrs. J. F. Cutler of San Francisco, a daughter of General M. G. Vallejo of early California history, protested against the use of the name of General Villa, and threatened to bring an injunction suit against the directors.

In last night performance the naval battle of Monterey, when California was won for the United States, was represented in a dramatic way. Survivors of the pioneers who were saved from an Indian attack by General Fremont's troops were carried before the grandstand by ox-teams.

BRETHREN CHURCH NOT TO AMEND RULES NOW

SEATTLE, June 24.—No further attempts to amend the rules of procedure of the general conference of the Church of the Brethren will be made at the conference now in session here as the result of action taken yesterday on a resolution doing away with the rule requiring a two-thirds majority to change the policy of the church. This resolution was referred to a committee to report at next year's conference. This committee was instructed to consider not only the abrogation of the two-thirds rule, but also general revision of the conference procedure.

Skin Diseases Often a Mystery

The Right Treatment Will Solve
Worst Problem

The key to unlock the mysteries of the eruptive skin afflictions is S. S. S., the famous blood purifier. If you will write for a splendidly illustrated book "What the Mirror Tells" you will learn why S. S. S. is the only remedy for skin diseases and tissue to replace the afflicted spots.

Get a bottle of S. S. S. today at any drug store and waste no more time with salves, ointments or lotions. Skin health comes from your blood. It comes from the network of tiny blood vessels that interlace all skin throughout the body. Now, when S. S. S. enters the blood it is carried throughout your body in about three minutes and its most active work takes place in the skin. Here it puts into motion the process of preparing all impurities into a substance that is promptly expelled through the skin pores.

S. S. S. is the only remedy for skin diseases. It is the only remedy for skin diseases. It is the only remedy for skin diseases.

DRUG CLERKS TO DISCUSS NEW LAW

Registration System Should Be Altered Is Their Belief.

One hundred delegates to the big convention of the California Drug "Lovers" Association are today gathered in Oakland, following the opening of their big convention last night. The clerks gathered to begin their session at the Chamber of Commerce auditorium, and will continue the business meetings tonight. Last evening's session was devoted to the routine of the opening meeting, greeting of delegates, registration of visitors, appointments of committees, and reports. Reports of the president and secretary, showing a prosperous year, were accepted.

One principal topic of discussion stated for the convention this year are the eight-hour law as affecting drug clerks, the movement to require hospitals and sanatoriums to conform with the law allowing only registered pharmacists in laboratories and dispensaries, and the advisability of declaring against the present California system of temporary certification, which, it is declared, permits any self-styled pharmacist to come here from the east and be given a three months' certificate to practice, pending his taking the state examination.

STEAMER "NEVADAN" Damaged in Harbor

LOS ANGELES, June 24.—The steamer Nevada of the American Hawaiian line, while entering Los Angeles harbor in a heavy fog today, ran into the breakwater in the outer harbor. It was able to proceed to its pier where an examination to determine the extent of the damage was begun. It was feared the vessel might have to discharge its cargo here and return to San Francisco for repairs. The Nevada was bound from San Francisco to Balboa.

GREEKS JUBILANT OVER ACQUISITION OF SHIPS

ATHENS, Greece, June 24.—Jubilant was expressed in political circles here today over the news that the United States Congress had authorized the sale of the American battleships Idaho and Misson to Greece. The acquisition of the ships to two war vessels will, it is declared, assure the balance of naval power between Greece and Turkey and thus prove a factor in maintaining peace which has been threatened.

MALTA, June 24.—The Greek consul here today issued a notification to Greek naval reservists in Malta that the Greek government had ordered five classes of the reserves to return to Greece by Saturday.

SUSPECT WOMAN CAUSED EX-COUNCILMAN'S DEATH

STAMFORD, Conn., June 24.—Waldo H. Davis, ex-councilman of Stamford, died early today at a local hospital of a fracture of the skull. Mrs. Helen W. Davis, a divorced woman, who was he was acquainted, is under arrest by order of the coroner pending investigation of the death.

Stamford, Conn., June 24.—Waldo H. Davis, ex-councilman of Stamford, died early today at a local hospital of a fracture of the skull. Mrs. Helen W. Davis, a divorced woman, who was he was acquainted, is under arrest by order of the coroner pending investigation of the death.

HEART AND LIVER ON WRONG SIDE, STARTLE DOCTORS

WASHINGTON, June 24.—With all his organs transposed—his heart being on his right side, the liver and appendix on the left and the large end of the stomach on the right—the case of Thomas Murdock, a negro laborer who was killed in a fall from a building here, was the subject of comment in medical circles today.

An autopsy revealed this curious anatomical phenomenon, which was without precedent in the district coroner's office. The body of the negro was otherwise normal and well developed and seemingly he had enjoyed good health.

Fainting Depositor Mistaken for Thief

SAN FRANCISCO, June 24.—A half dozen police detectives raced in a high power automobile to the Hilbert bank shortly before 1 o'clock this afternoon when a hurry call for the police was sent into the Hall of Justice by some one at the institution. Officers did not know the nature of the trouble and all speed records were broken in reaching the scene. When they arrived, they found Alfred Dalton, a carpenter of 1975 Ellis street, prostrate in front of the paying teller's window. He had fallen to the floor when about to address one of the clerks. It was feared that his illness might have been feigned and some sort of ruse put to work on behalf of possible robbers, but later when his identity was established it was found that he was one of the regular depositors of the bank and that he was taken suddenly ill. He was removed by Detective Right to the central emergency hospital.

Shorb Fails to Reply to Wife's Divorce Suit

SAN FRANCISCO, June 24.—The divorce action of Mrs. Maria J. Shorb, who was suing Donald McA. Shorb, wealthy lumberman and mining expert of Southern California, was called before Superior Judge Van Nostrand this morning. As yet no answer had been filed by the defendant, and whether or not he intends to contest the proceedings is not known. On motion of Mrs. Shorb's counsel, Attorney W. W. Davidson, the case was continued until July 7. This will give Shorb an abundant opportunity to answer the allegations of his wife if he desires. While the filing of the suit several days ago was unexpected, nevertheless the prominence of the parties has caused society to take much interest in the action. The Shorbs were married at St. Mary's Cathedral in December, 1906, at a brilliant ceremony, at which the late Archbishop Montgomery officiated.

S. F. Customs House Needs 200 Extra Men

WASHINGTON, June 24.—J. O. Davis, customs collector at San Francisco, told Assistant Secretary Malburn at the Treasury Department today he needed 200 extra men to man Pacific exposition. An appropriation of \$200,000 is now pending. Davis said that the exposition buildings were 90 per cent completed and predicted they would be finished much before the opening date.

APRICOT CROP IN EDEN 5000 TONS

Almost Ripe for Picking and Estimated at Value of \$175,000.

HAYWARD, June 24.—Is apricot growing profitable? Ask orchardists in Eden township this season where 5000 tons of crops are almost ripe for the picking. According to well posted fruit growers \$175,000 will be distributed among the growers in the township this year. Buyers have been in this field for weeks and good prices are given for the crop, which is a large one. The rain of last night and this morning will not affect the apricots. What a picture is the Castro Valley peach. The crop in several gardens in the valley has been practically ripe since June 3, almost a month earlier than usual. Mr. and Mrs. D. W. Sprague are among the growers of early peaches in other sections.

Unique Funeral for Air Tragedy Victims

VIENNA, June 24.—An escort of 20 aeroplanes flying mourning flags and manned by aviators from several nations, formed a flying funeral procession at the funeral today of the nine Austrian officers and men killed in the tragic air catastrophe of last Saturday.

While the funeral service was in progress the small air craft circled round and round the cemetery and then flew off in company.

The aerial tragedy which cost the lives of the nine aviators buried today occurred during Austrian army maneuvers. A military dirigible was participating in the maneuvers and was followed by an aeroplane. The smaller craft soared above the balloon during the sham battle with the object of taking up a position to drop on its adversary a mine bomb. The pilot of the aeroplane approached so closely that one of the wings of his plane ripped the great balloon, causing an immediate explosion.

Captain Merriam to Fight for Daughter

SAN FRANCISCO, June 24.—Captain Henry C. Merriam, United States army, is preparing to make a fight for the custody of his daughter, awarded to Mrs. Bessie Merriam when Superior Judge Graham heard the latter's divorce action recently. Tided the officer is planning to reopen the entire case. At the time of the first hearing Captain Merriam made startling accusations against his wife, intimating that she was guilty of improper conduct at Jackson barracks, Louisiana, while he was away at the front. These allegations were later passed over at the hearing.

Merriam caused more gossip in the army than any which has ever occurred at a post in this country.

Captain Merriam is now on duty in Texas and his anxiety to reopen the proceedings is said to be caused by his desire to have the complete control of his daughter.

NEW CHARTER NOT NEEDED; ORGANIZE EAST BAY CITIES

Action having for its object the adoption of a new charter for the City of Oakland is being taken, the proposed measure including the city manager plan and other innovations. THE TRIBUNE is opposed to this plan, for the proper step to take is the formation of a city and county government comprising the cities of Oakland, Berkeley and Alameda and the towns of Piedmont, Emeryville and Albany. These east bay cities should be united under one system and the sooner this is done the better for all concerned.

There are important reasons for suggesting this plan, the first of which is ECONOMY. Under the consolidation system one set of officials could do the work now performed by six. In lieu of six mayors and as many boards of commissioners or trustees there would be one executive and one board of supervisors. One assessor would do the work now requiring six, one tax collector would take care of the revenues, one clerk keep the books and records and so on down the line. There would be an immense saving as the result of reduction of officeholders and equalization of salaries.

There is another weighty reason. UNDER THE CONSOLIDATION PLAN THE EFFORTS OF SAN FRANCISCO TO ENLARGE ITS AREA BY ENCROACHMENTS ON THIS SIDE OF THE BAY WOULD BE FOREVER STOPPED.

The plan of San Francisco to acquire territory at the expense of the municipalities on this side took form two years ago when an amendment to the constitution was submitted. The east bay sentiment was strongly against such action and the fight made against it was so strong that the people of the state defeated the proposition.

BUT SAN FRANCISCO IS AGAIN PLANNING AN INVASION OF THESE COMMUNITIES AND AN AMENDMENT OF SIMILAR CHARACTER IS BEING FORMULATED FOR SUBMISSION AT THE NEXT GENERAL ELECTION. IF DEFEATED SAN FRANCISCO WILL TRY AGAIN TWO YEARS HENCE, AND WILL CONTINUE TRYING UNTIL IT WINS OR THE SIX CITIES IT HOPES TO ANNEX ORGANIZE THEMSELVES INTO A CITY AND COUNTY AND DECISIVELY PUT AN END TO THE MOVEMENT.

The adoption of a new charter will not check San Francisco, nor afford any degree of protection to the other communities, but will on the other hand prevent the consolidation suggested for twenty years. Admitting there may be benefits derived from the proposed measure, WHEN SUCH BENEFITS ARE COMPARED WITH THE LARGER DEGREE THAT WILL ACCRUE WITH THE UNION OF THE MUNICIPALITIES ALONG THE EAST SHORE THEY BECOME NEGLIGIBLE IN QUANTITY.

The best method for securing economy in government and at the same time to prevent the acquisition by San Francisco of cities that have grown to importance, not by the aid of San Francisco, but in spite of it, is to ORGANIZE A CITY AND COUNTY GOVERNMENT, AND TO THAT END THE TRIBUNE URGES THAT STEPS BE TAKEN AT ONCE WITH THAT OBJECT IN VIEW AND PROSECUTED TO AS QUICK A CONCLUSION AS POSSIBLE.

Delays are dangerous and no time should be lost in starting the work. DO IT NOW!

Stop This Street Destruction.

Oakland's paved streets are being ruined by auto trucks and trailers loaded beyond the legal capacity prescribed by ordinance. Complaints are being made by residents of all sections of this practice and these are so numerous as to demand immediate attention at the hands of the police.

The ordinance governing the weight of loads and vehicles is specific in its terms and provides that no person shall exceed the limit fixed without first obtaining a permit from the street commissioner. But it is evident this measure is more honored in the breach than in the observance.

Another cause of complaint is the speed at which heavy motors are driven and it is claimed that the excessive rate has something to do with street destruction. From the appearance of paved streets all over Oakland it is manifest that the authorities should waste no time. These streets cost the taxpayers too much money to permit of wanton destruction. No one desires to halt the work of draymen or others engaged in transportation of freight, but the limit of weight and speed fixed is ample for all purposes and no one should be permitted to exceed it.

"General Kelly's Army of the Unemployed," sixty strong, has arrived at Elkins, W. Va., on its way to Washington. Kelly himself is serving the tail end of a vagrancy sentence in Yuba County. This is a sort of case where the commander may be languishing behind bars, but his hosts, like the soul of John Brown, go marching on. Coxey, arrived at the capital with seven men, Kelly's corps with no commander, is more than eight times as large. Coxey utilized good hotels en route, Kelly remained behind in durance. Moral: If you want to lead the largest army go to jail.

Efforts are being made by San Francisco to capture the next convention of the Associated Advertising Clubs of America, now in session in Toronto. THE TRIBUNE wishes San Francisco success in this venture. This convention is one of the most important in the country.

"SPOUTING"

Should Revise State Constitution.

Secretary of State Jordan will place the resolution calling for a convention for the revision of the Constitution at the top of that portion of the ballot containing the various propositions of government that will be voted on at the election in November, and for such action deserves commendation. The Secretary of State regards this proposed act as the most important question to be decided and in his position is sustained by the judgment of the best trained legal minds in the State.

The California Constitution should be revised, cut down and simplified. It is more than three times as long as the Declaration of Independence, the Articles of Confederation adopted by the States in 1781 and the Constitution of the United States with its several amendments. It is more than five times as long as the Federal Constitution and as a result of the ensuing election may be expected to grow still larger. This condition is due to special legislation in the document. Constitutions are presumed to be fundamental or basic law upon which legislation regulating specified conditions is founded. But in California the trend of late has been to incorporate into the Constitution, not only the general principle, but the specific definitions of rule, the result being that this State has a document resembling in many respects the patchwork quilts of our foremothers.

There is danger in promiscuous adding to the Constitution obvious even to ordinary minds. It is comparatively easy to initiate a movement for an amendment and comparatively easy to secure its passage, for, regrettable as the condition is, all of us know that save where the change proposed is of such importance as to directly interest the great mass, voters for the most part pay little attention and devote little time to the study of probable effect such changes will have and allow adoption by default. Hence we are confronted with a possibility of having as a basis for our system of government a Constitution that may be divided against itself, one section affirming, the other negating a principle.

Such a Constitution will in time lead to vexations and expense. Litigation will be hampered and made even more difficult and costly than now. Grave problems affecting the welfare of the entire people may be rendered extremely difficult of solution, and in the delay incident to the final adjustment the commonwealth may suffer great financial losses.

In the light of the situation it is apparent that this document should be revised by a delegation of competent men, its surplusage eliminated, its contradictions reconciled, its cloudy mandates made clear and its general ensemble corrected.

And when so revised and corrected a provision should be incorporated making it impossible for a small minority to initiate changes, because when the need for reform is apparent the great mass will be quick to perceive the necessity. As the matter stands a disgruntled portion of the electorate, smaller in the proportion than the party casting the lowest vote, can halt operation of law, initiate measures and cause all sorts of confusion. The voters should vote yes on the proposition to revise the State Constitution.

Washington dispatches quote the President as having said he favors the sale of the obsolete battleships Mississippi and Idaho to Greece, but that he would oppose the transaction if he thought the vessels were to be used in war with Turkey or any other nation. Does the executive think Greece is buying these vessels for picnic boats?

Sitting beside his master in the automobile, a small spaniel owned by a Los Angeles switched his tail in the man's face causing an accident which resulted in the death of the driver and the serious injury of two other occupants of the machine. The moral seems to be if one must permit the dog in the auto, first amputate his tail.

The society young men are going to have some fun on the diamond at Piedmont grounds. The Bonemian baseball club will play a picked nine from Oakland's Four Hundred. It will be a contest for neither dollars nor doughnuts, but will simply be a game for fun. The teams that will take part in the contest will be made up as follows: Bonemian—Diamond, left field, Owen, pitcher, Woods, center field, Deane, second base, Tobin, shortstop, Flagler, first base, Spear, catcher, Wisco, third base, Atherton, right field. Picked nine—T. Magee, pitcher, Allen, catcher, Bridge, first shortstop, Adams, third base, Regue, right field, W. Wheaton, center field, Cohen, left field.

There is a growing sentiment that Berkeley is in need of a new town hall. The present structure was erected several years ago at a time when the town had a population of a few hundred. Now there are about 10,000, whose public business is transacted in a ramshackle edifice, whose mildewed and antique appearance fills the stranger with amusement. From the outside the hall has the appearance of a huge dry goods box. Alameda is to have a new city hall. For almost a year the town trustees have been endeavoring to erect a municipal building, which, while filling every requisite purpose would be a thing of beauty from an architectural point of view. Their labors have at length been crowned with success and the trustees have selected plans for a building which is to cost \$50,000.

JOLT THAT JARRED

Soldier Pole of the artillery went down in defeat before Yankee Schwartz, who had a professional record before he joined the army, in a hard-fought ten-round bout, which was the feature of a boxing program at the Olympia Theater.

The account of the victory of Schwartz and the defeat of Pole could well be written in short-story form by Richard Harding Davis under the title "The Left That Jarred." Mr. Davis was at the ringside and this tip is passed along without any charge. He can jot it down as a beat on the rest of the aggregation of war correspondents, this being the first time any of them has gathered in something for nothing since the near war.

Schwartz chopped his man down with a wicked left jolt which traveled but little more than twelve inches, but it jarred every tire it was put across. Pole fought back gamely throughout the contest and was more on the aggressive than

cut loose and filled the ring with fists. At this the Fifth Artillery bunch at the ringside opened a caisson of yells which crocheted a Swiss cheese effect into the atmosphere. The smoke-laden air being performed much as the Benito Juarez Tower after the Florida's held place got through working.

In the succeeding rounds Schwartz at frequent intervals would rock his opponents' head with that wicked left but he was not a boxer when it came to gameness or taking punishment. He merely gave a left jab and would not come off any more asking for more.

He never seemed to have a chance with the Yankee person, except when he mixed it. The only round which can be clearly awarded to him was the fifth when he

Ambassador Naon Reads Son's
Drama of Intervention and
Turns Censor.

NIAGARA FALLS, Ont., June 24.—The delicate Mexican situation has been a rising playright in the bud. This is one of the tragedies of the mediation conferences. While the mediators have heard the arguments of the Mexican and American delegates in an effort to reach an agreement for the pacification of the southern republic, sons and daughters of the principals have turned toward every possible sort of amusement to pass the time.

The son of Ambassador Naon, who is 11 years old, has been playing a drama of intervention and turns censor. He has been playing a drama of intervention and turns censor. He has been playing a drama of intervention and turns censor.

There are nearly a dozen men, young and old, in the United States, who are anxious to marry one of the fair daughters of the Mexican mediation conferences. Their names are: George, Isaac, Conception, Mercedes and Ruth. Their pictures have been published in papers throughout the country, and now they are receiving letters almost daily from lovers.

Ruth is the youngest of the four sisters. She is 16, but at present has received more letters than the others. Conception whose pet name in the family is Concha, and is the next youngest, is running Ruth a close second. One young man writing Ruth begged that he be given a picture. He said if there was any cost incident to having the picture taken he would willingly forward the money.

HOUSE APPROVES SELLING WARSHIPS

Accepts Amendment Authorizing
Transfer of Cruisers
to Greece.

WASHINGTON, June 24.—Sale of the American battleships Idaho and Mississippi to Greece for about \$12,000,000 was approved late yesterday by the House, which accepted by a vote of 174 to 87 a Senate amendment to the naval appropriation bill to authorize the transaction and the building of a dreadnaught with the proceeds. Formal protest from Turkey has not altered the plans of the administration, and the two warships will be in the hands of agents of the Greek government within a week.

Final action on the appropriation bill will be taken in the Senate tomorrow or Thursday and the measure will be sent to the President at once for his signature.

The Mississippi is now at Pensacola and the Idaho is at the Naval Academy.

Also in the Mediterranean, and the Idaho will be turned over to a Greek agent.

DELAY IN OPENING OF FEDERAL BANKS

Because Senate Waits, Organization Is Deferred Until August 1.

WASHINGTON, June 24.—Although August 1 is the date which Treasury Department officials originally set as the probable time for the organization of the Federal Reserve Banks, it now seems likely that the organization will be not earlier than September 1. The Senate's delay in confirming the members of the Federal Reserve Board has caused the choice of directors for the Federal Reserve banks will defer the plan to open on August 1.

The organization committee is now busily engaged in compiling lists of nominations for directorships in the twelve Federal Reserve Banks. After the committee has been compiled it will be submitted to the directors named by all member banks. These directors in turn must cast their ballots for directors within fifteen days after the receipt by them of the list of nominees.

Many of the member banks are situated so remotely that it will take over a week for their ballots to reach the Treasury Department, and more than a month to complete the election after the list has been mailed.

After six directors have been properly elected by member banks, three directors will be named by the Federal Reserve Board. Then the nine directors shall select one of their members for chairman. All this is preliminary to the actual work of providing banking quarters and opening the institutions for business.

At the first meeting of the nine directors of each Federal Reserve bank the duty will devolve upon them of designating one member of each of the A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z, AA, AB, AC, AD, AE, AF, AG, AH, AI, AJ, AK, AL, AM, AN, AO, AP, AQ, AR, AS, AT, AU, AV, AW, AX, AY, AZ, BA, BB, BC, BD, BE, BF, BG, BH, BI, BJ, BK, BL, BM, BN, BO, BP, BQ, BR, BS, BT, BU, BV, BW, BX, BY, BZ, CA, CB, CC, CD, CE, CF, CG, CH, CI, CJ, CK, CL, CM, CN, CO, CP, CQ, CR, CS, CT, CU, CV, CW, CX, CY, CZ, DA, DB, DC, DD, DE, DF, DG, DH, DI, DJ, DK, DL, DM, DN, DO, DP, DQ, DR, DS, DT, DU, DV, DW, DX, DY, DZ, EA, EB, EC, ED, EE, EF, EG, EH, EI, EJ, EK, EL, EM, EN, EO, EP, EQ, ER, ES, ET, EU, EV, EW, EX, EY, EZ, FA, FB, FC, FD, FE, FF, FG, FH, FI, FJ, FK, FL, FM, FN, FO, FP, FQ, FR, FS, FT, FU, FV, FW, FX, FY, FZ, GA, GB, GC, GD, GE, GF, GG, GH, GI, GJ, GK, GL, GM, GN, GO, GP, GQ, GR, GS, GT, GU, GV, GW, GX, GY, GZ, HA, HB, HC, HD, HE, HF, HG, HH, HI, HJ, HK, HL, HM, HN, HO, HP, HQ, HR, HS, HT, HU, HV, HW, HX, HY, HZ, IA, IB, IC, ID, IE, IF, IG, IH, II, IJ, IK, IL, IM, IN, IO, IP, IQ, IR, IS, IT, IU, IV, IW, IX, IY, IZ, JA, JB, JC, JD, JE, JF, JG, JH, JI, JJ, JK, JL, JM, JN, JO, JP, JQ, JR, JS, JT, JU, JV, JW, JX, JY, JZ, KA, KB, KC, KD, KE, KF, KG, KH, KI, KJ, KK, KL, KM, KN, KO, KP, KQ, KR, KS, KT, KU, KV, KW, KX, KY, KZ, LA, LB, LC, LD, LE, LF, LG, LH, LI, LJ, LK, LL, LM, LN, LO, LP, LQ, LR, LS, LT, LU, LV, LW, LX, LY, LZ, MA, MB, MC, MD, ME, MF, MG, MH, MI, MJ, MK, ML, MM, MN, MO, MP, MQ, MR, MS, MT, MU, MV, MW, MX, MY, MZ, NA, NB, NC, ND, NE, NF, NG, NH, NI, NJ, NK, NL, NM, NN, NO, NP, NQ, NR, NS, NT, NU, NV, NW, NX, NY, NZ, OA, OB, OC, OD, OE, OF, OG, OH, OI, OJ, OK, OL, OM, ON, OO, OP, OQ, OR, OS, OT, OU, OV, OW, OX, OY, OZ, PA, PB, PC, PD, PE, PF, PG, PH, PI, PJ, PK, PL, PM, PN, PO, PP, PQ, PR, PS, PT, PU, PV, PW, PX, PY, PZ, QA, QB, QC, QD, QE, QF, QG, QH, QI, QJ, QK, QL, QM, QN, QO, QP, QQ, QR, QS, QT, QU, QV, QW, QX, QY, QZ, RA, RB, RC, RD, RE, RF, RG, RH, RI, RJ, RK, RL, RM, RN, RO, RP, RQ, RR, RS, RT, RU, RV, RW, RX, RY, RZ, SA, SB, SC, SD, SE, SF, SG, SH, SI, SJ, SK, SL, SM, SN, SO, SP, SQ, SR, SS, ST, SU, SV, SW, SX, SY, SZ, TA, TB, TC, TD, TE, TF, TG, TH, TI, TJ, TK, TL, TM, TN, TO, TP, TQ, TR, TS, TT, TU, TV, TW, TX, TY, TZ, UA, UB, UC, UD, UE, UF, UG, UH, UI, UJ, UK, UL, UM, UN, UO, UP, UQ, UR, US, UT, UY, UZ, VA, VB, VC, VD, VE, VF, VG, VH, VI, VJ, VK, VL, VM, VN, VO, VP, VQ, VR, VS, VT, VU, VV, VW, VX, VY, VZ, WA, WB, WC, WD, WE, WF, WG, WH, WI, WJ, WK, WL, WM, WN, WO, WP, WQ, WR, WS, WT, WU, WV, WW, WX, WY, WZ, XA, XB, XC, XD, XE, XF, XG, XH, XI, XJ, XK, XL, XM, XN, XO, XP, XQ, XR, XS, XT, XU, XV, XW, XX, XY, XZ, YA, YB, YC, YD, YE, YF, YG, YH, YI, YJ, YK, YL, YM, YN, YO, YP, YQ, YR, YS, YT, YU, YV, YW, YX, YY, YZ, ZA, ZB, ZC, ZD, ZE, ZF, ZG, ZH, ZI, ZJ, ZK, ZL, ZM, ZN, ZO, ZP, ZQ, ZR, ZS, ZT, ZU, ZV, ZW, ZX, ZY, ZZ.

MISS NATHALIE COLE,
Whose Marriage

Barker Will
Take Place
This Evening.

DAUGHTERS OF THE REVOLUTION, COLONIAL Dames, Daughters of the Confederacy and others may look to their genealogical honors. A new society of the Daughters of American Indians seems likely to be the most distinguished society of the honorable descendants in America. Certainly it will be the most interesting.

A number of attractive girls whose mothers or grandfathers or great grand parents, as it may have happened, were Cherokees, Choctaws, Chickasaws or Sioux, have decided to form an association of descendants of Indians, and it's not unlikely that in a century or two it may become the aristocracy of the United States. But the most interesting point here is that the daughters of several prominent California families who are proud of the Indian blood in their veins are eligible for membership.

There is one beautiful young matron who, since her marriage has lived abroad, whose mother was a chief's daughter in the North. Her father was a well-known San Francisco man, a member of the Pacific Union Club, and distinguished in his profession. The daughter was educated abroad and came home for her debut a dozen years or so ago, and married soon afterward. She is charming and strikingly handsome, but for that matter so are most of the women of however remote Indian ancestry.

There is Miss Sadie Pendleton Thompson, who is a student at National Park Seminary in Washington, and decidedly a beauty. Her parents are Mr. and Mrs. W. P. Thompson, the former a noted lawyer of Oklahoma. Also there is Lorena Cruce, daughter of Governor Cruce of Oklahoma, who has Choctaw ancestry and owns large grants of land she received as a member of the Choctaw nation.

And there are others, all of them with the unusual charm and grace that seems to be a heritage. If a California chapter is formed it may include some of the most interesting women in society.

WEDDING THIS EVENING.

The wedding of Miss Nathalie Cole and Lawrence Barker of Los Angeles will be a quiet affair this evening at the Cole residence in Benvenue avenue. Mr. and Mrs. W. A. Barker of Los Angeles, parents of the groom, and Everett Barker, his brother, arrived yesterday from the South to be present at the marriage. The groom is a cousin of Earl Barker, whose engagement to Miss Madeline Chambers was recently announced. His father is president of the Barker Furniture Company.

Miss Cole is a daughter of Mr. and Mrs. Nathan Cole Jr., who formerly lived in Los Angeles. She graduated from Santa Clara a few weeks ago and arrived from the East only last week. The groom is a recent graduate from Yale. There will be no attendance at the wedding and only relatives will be present.

MISS GIBBARD'S TEA.

Miss Carmen Gibbard's tea in honor of Miss Alice Ziff and Miss Irene Orr at the Hotel Oakland on Saturday afternoon, will be one of the charming affairs of the quiet summer season. Miss Orr is the fiancée of Virgil Jorgensen, who is a cousin of Miss Gibbard's. The guests will be Mrs. George Porter Baldwin, Mrs. Joseph Gibbard, Mrs.

The Quarrelsome Woman

(By Lillian Russell)

Copyright, By LILLIAN RUSSELL.

WHAT phase of character is expressed by the word "quarrelsome"? Some women love an argument better, apparently, than any form of pleasure. I must confess that nature has the masculine tendency, born in them perhaps, to naturally expect men to argue upon any subject, and just for the sake of an argument. We know that when they purchase anything they are going to give an argument upon the merits of the article.

First, they accept the best without a thank you. We know that they never give praise to their children lest it spoil them. But we do not expect the same from a woman.

Therefore when we find one that keeps up an incessant harangue with her servants, her children, her dressmaker and everyone else who comes in contact with her, we must put her in a class by herself, and a class to which no one else belongs. A woman of this kind has an enormous idea of life and the ordinary joys of living must be hers! One continual argument she will always have. I have just had a terrible row with my chauffeur, or, "I have just given so and so a piece of my mind." She antagonizes everyone before she speaks to them. She first expresses her opinion unsolicited, and it is generally critical. She does not like to disagree with her. She seldom has a home for the reason that she cannot keep servants with her. She lives in one hotel after another, knows everyone's business and private affairs better than they know them themselves.

Of course she has money (no working woman lacks the milk of human kindness in her nature). She always parades her wealth and dares you to have anything so fine or cheap as she has. She knows everything better than any one else, and is altogether a positive pest any place she happens to be.

While she is young she can carry herself through the world upon her youthful arrogance, but when she passes the youthful stage, which will, in her case, be while she is still young in years, she will be shunned and avoided until she is finally left entirely alone, just at the time of life when women need companionship. Her old age will be lonely and miserable. Such women often get religious toward the end of life and try in a narrow way to make up for some of their past impositions, but they are too miserably alone to try to be good through the end of their lives.

Remember: People who are spending their lives arguing with and criticizing the world are letting peace and happiness pass by unnoticed.

Answers to Queries.

M. R.—A good skin food or cold cream applied to the face daily will remedy a dry skin. The cream must be a greasy cream, however, for it is the oils in the cream that supply the oil that is lacking in the skin. I shall send you instructions for massaging the face, with a formula for skin food, if you will send me a stamped, addressed envelope.

MRS. G. T.—There must be some cause for your constant headaches. Are you sure it is not your eyes? I would advise you to consult an oculist in regard to it and have your eyes examined. Do not let it go any longer. One cannot be too careful in regard to the eyes. You may have strained them some time and if they are taken in time it may save you a great deal of trouble.

ELSA—I think the trouble with your face is that it lacks the natural oil. The skin becomes dry and peels from the face. Facial massage with a good skin food will remedy this dry condition. Each night rub a good portion of the skin food or cream into your face for about ten minutes, then leave a portion of the cream over night to become absorbed in the skin and supply the oil that is lacking. You will find that in a few days your skin will become soft. Be sure to use an oil cream or skin food, as it is the oils in the cream that feed the skin and make it soft. If you care for the formula for skin food I have used for years I shall be very glad to send it to you with complete instructions for facial massage.

motor trip to the valley. They will be absent two weeks.

Another party that left yesterday for the Yosemite by motor includes Mr. and Mrs. J. H. Wright, Mr. and Mrs. W. Kinney and Miss Lorene Kinney. They will be absent a fortnight and on their return the Kinneys will again go to the Yosemite, where they have spent the past month.

VISITING THE GRAND CANYON.

Mr. and Mrs. Adelbert Wilson and Miss Clara Wilson are enjoying the scenic wonders of the Grand Canyon, where they will spend a month before returning to Oakland.

MARRIED IN SANTA ROSA.

The wedding of Miss Ada Cline of Santa Rosa, who graduated last year from the University of California, and Frederick Elsworth Palmer of San Francisco, took place at the residence of the bride's parents in Santa Rosa yesterday. The bride is a daughter of Dr. and Mrs. J. W. Cline and the groom is the son of Mr. and Mrs. Elsworth Palmer. The ceremony was performed by Rev. J. H. Smith, pastor of the First Baptist Church of Santa Rosa. The bride wore a gown of white tulle and the groom wore a suit of dark blue. The reception was held at the residence of the bride's parents.

MISS TILLMAN'S ATTENDANTS.

Miss Agnes Tillman's attendants at her wedding to Baron Van Eck on June 20th will be Miss Ernestine McVicar, Miss Beatrice Kelle, Miss Janet Coleman, Miss Marian Zelle, Miss Gertrude O'Brien, Miss Elva Deppa and Miss Gertrude Tower of Boston. Madame Isbell's
Beauty Lesson.

THE SLINKY WALK AND OTHER BEAUTY FAULTS—Part I.

No thoughtful person can fail to be unfavorably impressed both from the point of view of beauty and health by the new method of locomotion which I have heard some school girls name the "slinky walk." The growing girl for some reason—perhaps most mothers term it—seems to have a tendency to walk in a manner that throws out the stomach and rests the weight of the body back of the hip bone. To correct this defective carriage mothers have pleaded, capoled, commanded; they have poked their offspring in before and pulled them out behind; they have encoined them in corsets, shoulder straps and other harness, but nothing has been of much avail. When the girl's vanity was aroused, when she commenced to admire older women and to wish to emulate them in attractiveness, of her own volition she changed her manner of standing and walking.

Today unfortunately, she has no correct standard before her; to slump and sink is the fashion. She is not called on to imitate any goddess-like perfection; on the other hand the mature woman imitates her, for no one can slump and sink and glide as well as the immature girl—she naturally loves it and seems made that way.

Only One Correct Way of Walking. There is only one correct way of walking; the head should be up, the chest out, the center of gravity over the ball of the foot. The woman who walks thus is physically well-poised and she gives the suggestion of the same mental equipment. We certainly do not admire slinky characters, why should we be expected to be impressed by a slinky walk?

There is only one thing to be said in favor of a fat of this sort and that is that it may hinder up the mature woman and teach her to exercise some unused muscles. In trying to walk slinky she may discover some unused hip muscles that she had never used before. For the immature girl, however, the effect of the present fashion can only be said. These are the years when she should train her body rightly, not by the standards that a passing fashion imposes but by the higher standards of health, physical strength and beauty. When she comes to the slinky of Venus, the goddess, mother, "She walks as a queen" we have a very distinct picture in our mind—it is not that of a woman who slinks.

To be continued.

LEAGUE UNANIMOUS TO RECALL CITY COUNCIL

Public Utilities Organization Ratifies Report

Recommending a recall of the entire city administration, the committee of the Public Utilities League, anxious to protect the city's interests, constitutes on the part of the said city commissioners authorizing the same a

fair, last night rendered its decision to the session of that body at the Chamber of Commerce headquarters. The report was unanimously adopted without discussion.

It was submitted by A. P. Steifvater, former city councilman and head of the investigating committee. J. L. Davis, former mayor of Oakland, in proposing its adoption, declared that the facts in connection with matters outlined in the report were such as to require action already been discussed by all members. The report of the committee was adopted as follows:

AUDITORIUM FIRST.
"To the Public Utilities League:
"Your committee appointed to investigate the existing causes for a recall of the present city council or city commissioners begs leave to submit the following report:
"We specifically note that the authorization of the first \$500,000 bonds for the so-called municipal auditorium, as expressed in the ordinance No. 3210, adopted by the city council on May 6, 1911, provided for said bonded indebtedness in the sum of \$500,000 for the construction and completion of a public assembly hall or auditorium on land belonging to the city of Oakland; and further that said ordinance specifically sets forth the fact that plans and estimates of costs by a competent architect of the construction and completion of said public assembly or convention hall had been prepared, secured and furnished, and that said estimated cost of construction and completion is \$500,000.

"ALTERED PLANS."
"We find that the said estimated cost of \$500,000 for the auditorium was conditional upon the express provision that said sum of \$500,000, realized from the sale of said bonds, should be for the purpose of entirely completing the construction of said auditorium.
"It has now become clearly obvious that the city commissioners very materially altered the plans for said auditorium, and that the cost of completing the same, without first submitting the scheme for a change in the plans to a vote of the people.
"That the action of said city commissioners in passing to payment any charge against the auditorium fund without their having been executed full plans, specifications and contract thereon, for the completion of said building, showing the total cost of said completed auditorium to be not more than the amount authorized therefor, all secured by proper bonds

of their own office and is sufficient and warrantable ground for their recall from their official positions as commissioners of the city of Oakland.
MAYOR ACCUSED.
"That the conduct of the mayor, acquiesced in by the other four commissioners, of creating and providing for the naming and appointing of delegations and committees of plain citizens to assist in the recall of the city council on matters for the disposition of which said commissioners were elected, and are well paid for, said commissioners openly confess their inability to properly and efficiently conduct the governmental affairs of this great and growing municipality, and by so doing said commissioners shamelessly and hurtfully advise the city of Oakland as having a government of acknowledged even by its own members as being unworthy of public trust.

OTHER REASONS.
"We find also that the report of the Tax Association of Alameda county, with other evidences of unbusinesslike administration and wasteful extravagance, have from time to time come to the knowledge of citizens and have led large numbers of said citizens to the conclusion that the business affairs of the city of Oakland have not been wisely or efficiently managed, and in many instances have been even deceptively managed, resulting in a loss of public confidence in said officials, which in itself is a condition harmful to the public interest.

"Such wasteful extravagance was exhibited when the mayor, unwisely perhaps, used every effort in his power to obtain a vote for the proposition for the creation of a water district under an existing vicious law, admitted upon all sides to be clearly defective.
"These are but a few of the causes which in the opinion of this committee would warrant a recall of the entire city council.

"Therefore basing its action upon these facts this committee unanimously expresses its opinion that the present members of the city administration ought to be recalled by the people.

BEGIN CITY'S R. R. Fourth Municipal Line in S. F. Under Construction Along Stockton Street.

SAN FRANCISCO, June 24.—Work on San Francisco's fourth municipal railway line was begun this morning at Stockton and Market streets. A donkey engine and a large crew of men began work tearing up the pavements preparatory to placing tracks along Stockton street northward through the new tunnel and then through a junction with Columbus avenue. The line will extend westward almost to the bay, then turning westward to the exposition grounds. It will serve to open up a vast new territory giving it speedy communication with the center of the city.

San Francisco already owns the Geary and Union street systems and the Van Ness avenue line is well advanced. It is expected that cars will be running through on Stockton street this fall. The Van Ness avenue and Stockton street lines were planned to take care of the exposition business and will furnish the most direct route. Nevertheless they are expected to be having considerable patronage and will close its gates. Both will prove a wonderful convenience for residents as they furnish cross-town facilities for the Geary and Union street trunk lines.

WIND RAZES TOWN IN DAKOTA UNRUIN

Sixteen Blocks Swept
Bare; Injured Buried
in Ruins

Severe Electrical Storm Covers Great Lake Region

ST. PAUL, Minn., June 24.—Four killed in Minneapolis, two fatally and a score seriously injured at Watertown, S. D.; property damage estimated at more than \$1,000,000, with an almost complete prostration of telegraph and telephone communication for a number of hours, was the reported havoc today of last night's wind and rain storm which swept over North Dakota, South Dakota, Minnesota and Wisconsin.

Reports of the storm, however, were very incomplete here at noon, and it is quite possible that the loss of life and property damage totals may be largely increased when communication is restored in the four states.

Apparently the storm struck with greatest severity at Watertown, where it cut through a section at the corner of sixteen blocks with cyclonic force, between 250 and 300 buildings were wiped out.

Mrs. Carl Brock and baby and Miss Mary E. Cloyd were caught in the wreckage of their homes and possibly fatally injured.

In Minneapolis, Esther Munson, 17 years of age, was killed when her home collapsed.

Louis Grams and Margaret Kelly were drowned when their canoe was blown over in Lake Harriet.

Miss Loreta Grams of Jordan, Minn., also was caught in a canoe which was swamped in Lake Harriet and drowned.

WIDE AREA SUFFERS.
CHICAGO, June 24.—In the vicinity of Appleton, Wis., in Outagamie county, it was estimated a loss of \$100,000 was caused by the storm, which broke early today. A number of houses were wrecked and many cattle killed.

Considerable damage was wrought in Milwaukee by the tornado. It was a very unusual in its nature and in many places was accompanied by heavy rains, according to reports received at the local weather bureau today. The storm area covered South Dakota, Iowa, Minnesota, Wisconsin and the upper peninsula of Michigan.

Major Hersey, the forecaster, said: "The storm was first noticed at Prince Albert, Can." said Major Hersey. "At 7 o'clock last night it turned south and became central at Huron, S. D. It traveled east over the heart of this morning was central at Escanaba, Mich., where it was a inch of rain fell and the wind blew thirty miles an hour. The highest wind velocity was at Sioux City, Ia., sixty-eight miles an hour. At St. Paul, Minn., its velocity was fifty-six miles."

TWO WILL DIE.
WATERTOWN, S. D., June 24.—Early today it was known that twenty-two persons were injured, three of them probably fatally, in last night's tornado, which also demolished buildings and wrecked cars in the vicinity of the southern part of the city.

Most of the injured were caught before they had time to escape to cellars or other places of refuge. The twisted ruins through the destroyed heart of the city time the force by which the little time for escape by normal Rose and James Hogan, both of whom received a fractured skull, were the most dangerously hurt, and both are expected to die.

The infant child of Carl Bachlund also received what are believed to be fatal injuries.

The usual tornado freaks were to be seen after the storm passed, one of which was the raising of a large barn from its foundation and turning it upside down into a residence.

Well filled Island passenger train, well filled with passengers blown out, but none of the passengers suffered serious injury.

The central or business portion of the city did not suffer greatly and telegraph wires were working two hours after the tornado had passed over.

The worst of the town for several miles, until the force of the wind was lost, much damage to farm property resulted, but no casualties are reported.

FAMILY WIPED OUT.
CLEAR LAKE, S. D., June 24.—H. E. Manning was killed and Mrs. Christian and baby, Anna, fatally injured in a tornado near here last night. Property loss, \$40,000.

**Labor Cause Cause
of Varied Protests**
WASHINGTON, June 24.—Petitions for and against the labor exemption clause in the Clayton anti-trust bill and in the sundry civil bill are being received by the Chamber of Commerce of the United States, purporting to be signed by 600 business men, received today, protesting against the exemption clause legislation in its worst features.

ACTOR OR PATHFINDER HE POINTS MAGIC ROAD

Hodge in Rural Comedy Gives Wholesome Performance

Opportunity is now offered to refer again to a visiting rural comedy as sending forth the breath of new-mown hay. Plays having other odors are forgotten in the enjoyment of "The Road to Happiness," with William Hodge as guide, philosopher and friend of everybody, pointing out the way. He will give five directions for keeping on the main road for the next three nights at the Macdonough.

As Jim Whitman, Hodge is the Sunby Jim of the stage. "The Road to Happiness," as he directs you, lies at first through the center of a village in the state of New York, made up apparently of a population in

mindful folk are exceptions. Jim remains sunny in this environment and then we find that the road winds through the valley of contentment and over the hills of peace and down by the river of cheerfulness.

WELL-KNOWN FOLK.
The story need not be told. The characters have appeared before upon the stage and are living in other towns outside of New York state.

The action is centered around an unhappy marriage. Hodge, as Jim Whitman, Hodge, whose principal occupation, as far as the play reveals, is making everybody unhappy, except Jim Whitman. Outside of his other pleasures won through hardships of life, Jim gets a lot of enjoyment from outwitting Hodge at every turn and winning the Hodge's daughter.

There are other courtships with equally happy outcomes in this laughter-filled play, which dispel all the Hodge's unpleasantness, and there are developments which soften the heart of the unhappy one.

HAPPY SPEECH.
Hodge gave good measure in entertainment last night with a foot-light speech in which he extended the thanks of all in the cast, including a spavined horse, a canary, a dog and a hen which roosted peacefully in the rafters of a barn, which is depicted faithfully, even to the last straw upon the floor.

A prominent member of the company is Adin B. Wilson, son of City Commissioner John A. Wilson of Berkeley.

"The Road to Happiness," one of the most wholesome plays Oakland has seen in months, is presented by artists of the first rank.

The stage settings are notably elaborate.

The young woman who, in 1911, was voted "the prettiest girl in Cleveland," is with Hodge's company. She is Gertrude Hitz and as she is still young and still beautiful, she is the "dear dear" first prize beauty medal which she won in a field of more than 11,000 beauties for which the "sixth city" is noted.

She is under whose direction "The Road to Happiness" is being presented, has announced his plans for starting Miss Hitz in a play now being written for her by a well-known woman dramatist.

U. S. TO INVESTIGATE CANTALOUPE EXCHANGE

LOS ANGELES, June 24.—The government's investigation of the affairs of the Western Cantaloupe Exchange, with headquarters in Chicago and regional offices in western cities, shifted to Southern California yesterday. Federal officials hinted that the federal grand jury in this district might begin in Los Angeles soon an investigation under the Sherman anti-trust law of the operations of the exchange similar to that now under way in Chicago.

John M. Bowen, special agent of the department of justice, left Los Angeles last night for the Imperial Valley, where many of the cantaloupes handled by the exchange are grown.

He had instructions from Washington to obtain from growers, shippers and resident agents of the exchange all possible evidence desired for the present investigation.

ELECTRIC BELT DOCTOR IS JAILED FOR FRAUD

NEW YORK, June 24.—Upon the order of Postmaster General Burleson, the offices here of the Sanden Electric Company, which carried on an extensive business in the sale of electric belts as a cure for various ills, were entered by postoffice inspectors yesterday.

In the complaint sworn to by Postoffice Inspector Edmund Hovey of Washington, it is charged that the company and its associates sold the electric belts all over the world by means of magazine and newspaper advertisements, which, it is alleged, falsely represented that the belts would cure numerous diseases.

The profits of the concern are said to have been \$50,000 a year.

SERVIANS AWAIT VIDOV-DAN DAY

Picturesque Ceremonies to Typify Outcome of Rebellion Against Turks.

Within a week of the American independence day jubilee on July 4 the Servian-Americans of California will celebrate the dawn of a new national freedom in their own native land at Schuetzen park, Marin county, next Sunday.

The festival will take place on Vidov-Dan, an ancient Servian holiday, and its picturesque ceremonies will typify the world-wide rejoicing of the Servian people over the successful outcome of the war of rebellion which their countrymen waged against Turkey in 1912-13.

It was on Vidov-Dan in 1389 that the Servian empire was conquered by the Turks, and for more than five centuries thereafter the Servian people lived in a state of servitude. During all that sorrowful period the Servian bard, patron saint of Vidov-Dan, led his people through the "Valley of Tears," and this year's celebration will be the first in more than half a thousand years to be marked by a spirit of national happiness.

A mounted parade, in which several thousand Servians, Roumanians, Croats and Slavonians will take part, is to proceed from Servian Sokol ball, 1034 Golden Gate avenue, to the ferry building on Sunday morning.

Only the Servian and American flags will be flown. In Schuetzen park at noon a mammoth open-air banquet will be served, and a number of Americans have been invited as guests of honor, among them Mayor Rolph, Supervisors Andrew Gallagher and Ralph McLeran and Samuel Shortridge.

The program of festivities will include Servian dances in costume by pretty Servian girls, athletic games in which the crack athletes of the Servian colony will participate, drills by the Slavonic sokols, or gymnastids, and speeches by Servian and American orators.

SAME MURDER CLAIMED BY TWO PERPETRATORS

NEW YORK, June 24.—Two persons—a man and an 18-year-old girl—each told the district attorney yesterday that the murder of Giuseppe Marino, whose body was found in a Harlem flat a month ago, was through their individual act and each denied that the other had anything to do with the crime.

The girl, Marie Magulund, was arrested last night after masquerading for weeks as a man. She told the police she shot and killed Marino when he threatened her for failing to become a party to a blackmailing scheme. The man, William Flack, who was arrested, directly after the murder, was brought from his cell to the Tombs and heard the girl's story. He still insists that he murdered Marino.

After robbing him of the murder money, she told the girl looked contemptuously at the man, who appeared entirely indifferent while she was trying to prove it was she who did the killing. Both were locked up on a charge of murder.

AGREE UPON TEST CASE FOR HINDUS

Immigrants on Komagata Maru to Await Decision of Appellate Tribunals.

VANCOUVER, B. C., June 24.—An agreement for a test case by which the highest court can be asked to pass upon the provisions of the Immigration law which prohibit the admission of Hindus was reached today.

As a result, proceedings in the British Columbia court will be dropped and the Immigration board will hand down a decision in the Hindu cases so that an immediate appeal can be taken to the Court of Appeals now sitting at Victoria.

It is expected that a decision from that court may be obtained in two weeks. From the case can be taken to the Canadian supreme court and eventually to the privy council in London.

The Hindus aboard the Komagata Maru must remain on shore many weeks awaiting the final decision from the court, as the Immigration officials will not consent even to a temporary landing.

SEEK ASSISTANCE OF FARM ADVISER

Centers Being Organized by Head of Alameda Bureau in Convenient Locations.

One county in an eastern state increased the value of its farm products 20 per cent as the direct result of the work of the farm adviser provided for by the Federal government appropriation.

Alameda county is trying to get the benefit of such a farm adviser and to do so a membership of \$20 for the Alameda county farm bureau must be obtained and reported before July 1.

The bureau is being organized by H. R. Robinson, president of the Alameda county farm bureau. Up to date 14 of these have been formed, located at Oakland, Hayward, Irvington, Newark, Mt. Eden, San Leandro, Livermore, Castro Valley, Mills, Mission San Jose, Fremont, Alameda and Alhambra.

Frank A. Leach is director and D. H. Bradley, secretary, of the Oakland center.

The southern and eastern portions of the county are very anxious to have the assistance of agricultural departments at Washington and at the University of California.

The state's first communities are joining the bureau freely but the short time limit makes it necessary for Oakland citizens to give their help.

Director Leach has asked all Oakland citizens directly and indirectly interested in the prosperity of the farmer to send in their names with the membership dues for one year (\$1) to the secretary at the Chamber of Commerce.

It is known that Alameda county has 2500 farmers. The present annual value of the products of their farms is estimated at from \$2,000,000 to \$2,500,000. Any increase in the value of these crops directly affects all classes of business in Oakland, as the farmers of Alameda county spend fully 50 per cent of their total incomes with the merchants and business-men of this city.

The business people of Oakland can realize what it would mean to bring about condition of affairs that would make it possible for the Alameda county farmers to have \$2,000,000 to \$3,000,000 more money to spend each year.

Plaintiff left their home at 1015 Henry street, Berkeley, yesterday, after the alleged occurrence and went to the offices of a lawyer, where she commenced the divorce proceedings.
